the ed up platypus pdf

the ed up platypus The platypus (*Ornithorhynchus anatinus*), sometimes referred to as the duck-billed platypus, is a semiaquatic egg-laying mammal endemic to eastern Australia, including Tasmania. Together with the four species of echidna, it is one of the five extant species of monotremes, the only mammals that lay eggs instead of giving birth to live young. The animal is the sole living representative of its ...

Platypus - Wikipedia

the ed up platypus Perry the Platypus (also known as Agent P or simply Perry) is a bipedal platypus from the American animated series *Phineas and Ferb*. Perry was created by the series' co-founders, Dan Povenmire and Jeff "Swampy" Marsh. He first appeared along with the majority of the main cast in the pilot episode "Rollercoaster." Perry is featured as the star of the B-plot for every episode of the series ...
